PROCEEDINGS OF THE MEETING OF THE COUNCIL DATED 7-9-1949

14 Letter No L 11136/ML 10-48-122 dated 29-3-1949 from the General Secretary to Government calling for the considered views of the Municipal Council in the matter of placing the Combined Maternity Home and Dispensary in Palace Guttahalli under the administrative control of the Medical Department as in the case of other dispensaries in Bangalore City

Janab A J Khaleel observed that it would be very useful to transfer the control of the Combined Maternity Home and Dispensary in Palace Guttahalli bo the administrative control of the Medical Department He said that this might be taken as a precedent and the entire maternity Homes now managed by the Municipality might also be handed over to the Medical Department in the interest of better management Medical Department was a technical Department with expert Doctors and would very much improve the several defects He suggested that the proposal may be accepted and they be suggested to take over the control of the remaining Maternity Homes and Dispensaries also now run by the Municipality This would not in any way lessen the prestiege of the Council in as much as the Council will have general control and supervision over the Hospitals and that only administrative control would be given to the Medical Department

Sri G Nanjappa apposing the proposal said that it was the duty of the Municipal Council to provide necessary amenities to the people and providing maternity relief and medical aid was all the more an obligatory function of the Municipal Council The Municipal Maternity Homes were being managed in a very satisfactory manner and there was not reason why the Government should interfere in the Municipal Administration After all only ordinary cases were being treated and immediate attention was being given in Municipal Maternity Homes These maternity Homes were a great source for the poor and it was not desirable to transfer the control to Government The Government should on the other hand provide necessary facilities to the Municipality for the efficient working of the Institutions The control of Primary Education was vested in the Municipality and the same was taken over to Government and that there was no improvement in the management of primary education No building was constructed by Government ever since the control was taken over from the Municipality He suggested that the Government should be addressed not to interfere with the management of Maternity Homes

Sri G S Devadass observed that the Municipal Maternity Homes were working in a very satisfactory manner and it was not understood why the Government wanted the control of the same Primary Education was similarly taken over to Government with the intention of better management but there was no improvement at all in regard to primary education Private schools were far better than the Government institutions and therefore it was not desirable to hand over the control to Government

Sri K Shamaraja Iyengar observed that Government was snatching away the powers of the Municipality one after another Underground drainage work, formations of extensions, collection of Mileage Cess, Collection of entertainment Tax and similar other allied duties were all taken away from the Municipality with the result the Council was unable to do any substantive service to the rate payers of the City

Coming up before the Council every now and then and requested the President that a definite reply be sent to Government not to make such proposals in future unless the initiative was taken by the Municipality

Sri P R Ramaiya observed that there was a trend everywhere to give more powers and facilities to Village Panchayats for discharging civil & duties and such being the case it was not understood why the Government wanted to cut short the powers of the Municipality He said that the Vani Vilas Hospital run by Government was not at all looking to the needs of the poor and only rich people were given all consideration The Municipal Maternity Homes afforded all facilities to the people without any discrimination He stressed that there was no need for any transfer

transfer of control to the Medical Department

Sri G V Rudrappa observed that the Senior Surgeon who had attended the Council meeting on some previous occasion, had expressed this view and he had personally inspected some of the Maternity Homes in t this connection to acquaint himself with the prevailing conditions. The proposal now made was just to exercise proper control and supervision, of the staff and therefore there was no need for any misapprehension in this regard and that the prestige of the Council also would not in any way be affected, by handing over the management He suggested that in the interest of better working and efficiency, it was better the administrative control be handed over to the Medical Department

Sri V.R Naidu opposed the transfer and said that people did not get proper relief in Government Hospitals and the Municipal Hospitals were rendering a great service to the poor and wanted that the prevailing procedure should continue Much inconvenience was caused to people in the Malleswaram Maternity Home and even the Senior Surgeon was requested to provide necessary facilities at the place but so far no action had been taken in the matter

Sri D R Puttanna observed that the proposal sought for now was not satisfactory He said that the Municipal Maternity Homes were functioning on a satisfactory basis and that Government would be taking a wrong view if they thought that they would run it more efficiently The institutions now working under Government control were most unsatisfactory and therefore it was not desirable to hand over the control to Government Department

Srimathi Annapurnamma observed that the Maternity Homes managed by the Municipality afforded all relief to the needy public and that the Vani Vilas Hospital and other institutions run by Government did not pay any attention towards poor people She suggested that Government should be addressed to hand over all the Institutions in the City to the control of the Municipality

Sri C Rajagopalachar observed that much facilities were afforded in the Municipal Maternity Homes and cases of pregnancy were being treated from 4th month to 9th month and proper medical aid was being given to them and this facility was not to be seen anywhere in the Mysore State He suggested that the present proposal need not be accepted

Sri I Sitapati Naidu observed that the present proposal looked as though a mild sort of show cause notice to the Municipality and no satisfactory reason was made out in the letter as to why only this particular institution should be handed over to Government He suggested that the Government may be suggested to devote its attention towards rural parts where there was great need for medical aid instead of asking for the control of Municipal Maternity Homes He said that the administration and control of Hospitals under Municipal management was highly commendable and there was absolutely no reason for handing over control

Dr Rama Setty observed that Municipal Maternity Homes were functioning satisfactorily and it was needless to hand over charge to to the Medical Department There was no proper co-ordination between the Public Health Department with the result there was not proper control and supervision in Government Institutions

Sri K Shamaraja Iyengar suggested that the opinion of the Health Officer might be obtained if necessary, as regards the working of the Maternity Homes

Messrs D R Puttanna, G Nanjappa, G S Devadass, all spoke and said that there was no need to obtain the opinion of the Health Officer

The Commissioner speaking said that so far as the working of the

the Maternity Homes was concerned, the Govcrnment at no time had made any remarks regardıng the unsatisfactory workıng of the Institutions, and that the Maternity Homes were working fairly on a satisfactory basis But the proposal now put forth by Government was to obtain the views of the Council in the matter of transferring the control to the Medical Department for purposes of better management and it was upto the Councıl to decide the matter

Sri N Keshava Iyengar observed that it was the publıc who could well judge the matter Government had not given any special reasons for thıs transfer and that merely because some L F Dispensaries were being managed by them, it dıd not necessarily mean that even the Municıpal Maternity Homes should be handed over to them

Resolution - "It is resolved that the considered views of this Council ıs not in favour of placing the Combined Maternity Home and Dispensary in Palace Guttahalli under the administratıve control of the Medical Department "
